Chamberlain issues refunds to students who completely withdraw from all classes prior to completing a period of enrollment. A period of enrollment is defined as a semester or any discrete portion of a semester (session) in which classes do not overlap. Refund calculations are based on the date of withdrawal, the Chamberlain refund policy and the policy of the student's original state of residence. Of the amounts calculated, the one most favorable to the student is the refund issued. In all cases, policies are applied to tuition charged for the period of enrollment.

### Georgia Minimum Refund Policy

Students who cancel their application within 10 business days of submission are entitled to a refund of all monies paid. Students who have completed 50 percent or less of the session are entitled to a refund based on the proration of tuition and percentage of course completed at withdrawal, or as required by applicable state or federal laws and regulations if more favorable to the student.

### Fees

Institutions that charge for fees, books and supplies which are in addition to tuition must refund any unused portion of the fees if a student withdraws before completing 50 percent of the period of enrollment except for:

- Items that were specially ordered for a particular student and cannot be used or sold to another student
- Items that were returned in a condition that prevents them from being used by or sold to new students
- Nonrefundable fees for goods and/or services provided by third-party vendors

### Grievance policy

The student has the right to appeal all unresolved matters or the final institutional decision to:

| GNPEC Disclosures - September 2018   |  |
|--------------------------------------|--|
| <b>Enrollment:</b>                   | Students enrolled during the Fall 2017 semester.   |
| <b>Graduation Rate:</b>              | The cohort consists of all full-time degree-seeking students starting a Chamberlain University undergraduate or graduate level program in fall 2011, minus qualifying exclusions. The graduation rate is the percent of the cohort graduating within 150% of program length. *Denotes cohorts with less than 10 students; cohorts with zero students are marked "n/a."   |
| <b>In Field Employment Rate:</b>     | The denominator of the rate was defined as all students who graduated between 9/1/2016 and 8/31/2017, except those who entered another post-secondary education program or the military full-time, were incarcerated, or died. The numerator of the rate was defined as all students in the denominator who were employed in an occupation for which they were trained by the program by December 1, 2017 or at any time prior to graduating. The employment rate was calculated by dividing the numerator by the denominator. *Denotes rates with less than 10 graduates during the time period; rates marked "n/a" have zero graduates in the denominator.                 |
| <b>New In Field Employment Rate:</b> | The denominator of the rate was defined as all students who graduated between 9/1/2016 and 8/31/2017, except those who entered another post-secondary education program or the military full-time, were incarcerated, or died. The numerator of the rate was defined as all students in the denominator who were employed in an occupation for which they were trained by the program by December 1, 2017 and no earlier than six months prior to graduating. The employment rate was calculated by dividing the numerator by the denominator. *Denotes rates with less than 10 graduates during the time period; rates marked "n/a" have zero graduates in the denominator. |
