IMPORTANT INFORMATION ABOUT THE RN TO BSN DEGREE COMPLETION OPTION “KNOW BEFORE YOU GO” FACT SHEET

How relevant is this information to me? The Know Before You Go Fact Sheet provides information about Chamberlain University and its RN to BSN Degree Completion Option, and information about U.S. colleges as a whole. Certain information, such as earnings outcomes, can be different depending on where you plan to live and your individual situation and experience. The Fact Sheet information is intended to help you compare some information about Chamberlain and its RN to BSN option to other colleges as you think about your choices.

Information Sources

Total program costs is the total tuition, fees and average estimated textbook and equipment expense for a student attending full-time who takes and passes every course currently required by the program at Chamberlain a single time at the current tuition rate.

Median tuition, books and fees paid is the median amount paid to Chamberlain by students using Title IV aid who graduated from this program within the normal program length who started in the 2015-16 academic year. This amount is different than the total program costs and may be different for each student because students may transfer credits from other colleges, repeat courses that are not passed the first time or choose the RN to BSN option after first choosing other programs at Chamberlain.

Median student loan debt is the median total debt (federal, private and institutional loans) of students using Title IV aid who completed this program within the normal program length and started in the 2015-16 academic year.

The median earnings 10 years after entering college (Chamberlain or all 4-year schools) is calculated or compiled and reported by the U.S. Department of Education as part of the College Scorecard available at: <https://collegescorecard.ed.gov/>. Numbers reflect the CY2013 and CY2014 earnings (inflation-adjusted to 2016 dollars) for students entering the school in 2002-2003 and 2003-2004. The amount is the median earnings of students who are working and not enrolled 10 years after entry. THIS DOCUMENT DOES NOT GUARANTEE EMPLOYMENT OR A CERTAIN SALARY RANGE.

Completion rate for first-time, full-time students (for both Chamberlain and all 4-year schools) is the U.S. Department of Education's measure of the percentage of students who are new to college and entered full-time who complete the program within 150 percent of program length [for a bachelor's degree program, normal time is usually four (4) years, and 150 percent of normal time is six (6) years]. The national average for all U.S. colleges is provided by the U.S. Department of Education as part of the College Scorecard available at <https://collegescorecard.ed.gov/>.

Completion rate for all new full-time Chamberlain students is defined similarly to the "first-time, full-time" completion rate above except it includes those who previously attended another institution. Chamberlain calculates this measure based on Chamberlain data for the program.

The loan default rate for the program is calculated by the institution and is based on the program of study for which the student was last enrolled before entering repayment. The default rate measures the percentage of students entering repayment in 2014 who defaulted on their loans within three (3) years.

Loan default rate is the percentage of borrowers (4 year U.S. Colleges and Chamberlain) entering repayment in 2014 who defaulted on their loans within three (3) years. The rate is provided by the U.S. Department of Education and can be found at <http://www2.ed.gov/offices/OSFAP/defaultmanagement/cdr.html>. In addition, a loan repayment rate for former Chamberlain students as well as those who attended other institutions can be found on the College Scorecard at <https://collegescorecard.ed.gov/>.

Licensure pass rates are provided by state licensing regulatory bodies to the institution. Where appropriate, state results are aggregated to produce a national average for the institution. Public availability of the testing results varies by profession and state.
