IMPORTANT INFORMATION ABOUT THE BACHELOR OF SCIENCE IN NURSING (BSN) DEGREE PROGRAM
“KNOW BEFORE YOU GO” FACT SHEET

How relevant is this information to me? The Know Before You Go Fact Sheet provides information about Chamberlain University and its Bachelor of Science in Nursing (BSN) degree program and information about U.S. colleges as a whole. Certain information, such as earnings outcomes, can be different depending on where you plan to live and your individual situation and experience. The Fact Sheet information is intended to help you compare some information about Chamberlain and its pre-licensure BSN degree program to other colleges as you think about your choices.

Information Sources

Total program costs is the total tuition, fees and average estimated textbook and equipment expense for a student attending full-time who takes and passes every course currently required by the program at Chamberlain a single time at 2020-2021 tuition rates.

Median tuition, books and fees paid is the median amount paid to Chamberlain by students who graduated from this program in the 2018-19 academic year. This amount is different than the total program costs and may be different for each student because students may transfer credits from other colleges, repeat courses that are not passed the first time or choose the BSN degree program after first choosing other programs at Chamberlain.

Median student loan debt is the median total debt (federal, private and institutional loans) of students who completed this program in the 2018-19 academic year.

The median earnings one year after graduation is calculated or compiled and reported by the U.S. Department of Education as part of the College Scorecard available at: https://collegescorecard.ed.gov/. THIS DOCUMENT DOES NOT GUARANTEE EMPLOYMENT OR A CERTAIN SALARY RANGE.

Completion rate for first-time, full-time students is the U.S. Department of Education’s measure of the percentage of students who are new to college and entered full-time in fall 2013 who complete the program within 150 percent of program length (for a bachelor’s degree program, normal time is usually four (4) years and 150 percent of normal time is six (6) years).

Completion rate for all new full-time Chamberlain students is defined similarly to the “first-time, full-time” completion rate above except it includes those who previously attended another institution. Chamberlain calculates this measure based on Chamberlain data for the program.

The loan default rate for the program is calculated by the institution and is based on the program of study for which the student was last enrolled before entering repayment. The default rate measures the percentage of students entering repayment in year ending 9/30/17 who defaulted on their loans within three (3) years.

Loan Default Rate is the percentage of borrowers entering repayment in between October 1, 2016 and September 30, 2017 who defaulted on their loans within 3 years. Provided by the U.S. Department of Education and can be found at: http://www2.ed.gov/offices/OSFAP/defaultmanagement/cdr.html.

Licensure pass rates are provided by state licensing regulatory bodies to the institution. Where appropriate, state results are aggregated to produce a national average for the institution. Public availability of the testing results varies by profession and state.
